

CEWS Projects

GEECCO – Gender Equality in Engineering through Communication and Commitment

CEWS evaluates the planning, implementation and effects of gender equality plans in four cooperating technical universities and develops customized monitoring and evaluation guidelines. The results serve the evidence-based development of university gender equality policies. The monitoring and evaluation guidelines become available online in 2021.

Project lead: Dr. Anke Lipinsky | Duration: May 2017 - April 2021
Funded by: EU, Horizon 2020, Grant agreement No 741128

StaRQ – Standards, Guidelines and Quality Assurance for Gender Equality in Science

The StaRQ project pursues two main objectives: On the one hand, developing quality standards and guidelines for measures to promote gender equality in academia. On the other hand, different (virtual) platforms will be created to facilitate the sustainable exchange of expertise for the quality assurance of gender equality measures.

Project lead: Dr. Nina Steinweg | Duration: Sept. 2019 - August 2022
Funded by: BMBF, funding number: 01FP1901

EvalFAU – Evaluation of Gender Equality Measures of the Technical Faculty of the Friedrich-Alexander University Erlangen-Nuremberg (FAU)

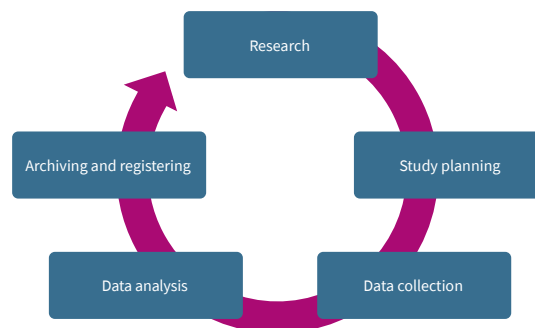

Equality measures of the Technical Faculty of the FAU are the focus of an evaluation carried out by CEWS. The subject of the evaluation are the different program lines of the ARIADNE mentoring program as well as other selected measures for the promotion of young women scientists.

Project lead: Dr. Nina Steinweg | Duration: April 2020 - December 2021
Funded by: FAU

GESIS – Supporting social science research since 1986 in all phases of research:

Research	Information on data, literature, research projects, important institutions and conferences
Study planning	Consultation and services for planning and conducting a survey
Data collection	Consultation and services during the data collection phase
Data analysis	Support, consultation and data for secondary analysis and reference, analyzing tools
Archiving and registering	Long-term permanent archiving and registration of data and publications

In addition, GESIS offers user conferences and research methods training events for all these phases.

CEWS

Center of Excellence Women and Science

CEWS aims to promote the implementation of gender equality in science and research in Germany. The services and research of CEWS support evidence-based learning about inequalities and gender equality policies - to make academia gender-sensitive - and dismantle hierarchies and privileges created by structural, social, sexist and racial discrimination, with a focus on gender.

CEWS contributes to improving the quality, effectiveness, and sustainability of gender equality in science and research at the political and organizational levels, as well as at the level of knowledge production by building bridges between gender equality research and practices.

Collaborating internationally, CEWS implements national, international and European projects in the fields of gender and inequalities in academia. The coherent integration of research, networking, consultation and scientific service create CEWS' unique selling point.

Our Service Portfolio (Selection)

Topics

Curated information on selected topics (e.g. gender bias in science and research) incl. literature, links, videos etc.

CEWSjournal*

Electronic journal (6 issues per year) with edited content from science and research.

Statistics*

Structured statistical data on gender relations in science and research.

Gender Equality Law Database*

German regulations in higher education and gender equality laws at federal and state level.

News & Events*

Calendar of events; call for papers; job vacancies in the field of gender equality as well as women's and gender studies.

/femconsult

Europe's largest recruitment portal with scientific profiles of more than 3,000 women experts from all professional fields and disciplines.

Research Data Directory

Access to research data on gender relations in academia and information on archiving.

(Political) Consulting

Consulting for scientific institutions, organizations and gender equality experts, support for external/political bodies, application training, expert activities in state, federal and European policies.

Evaluations

Program evaluations as well as evaluations of the measures, gender equality policies and programs of universities.

Dialogue between Research and Practice

Transfer of gender and equality expertise into practice through interactive formats, lecture series as a platform for scientific discourse, scientific lectures.

Inter(national) Cooperation and Networks

Creation of networking opportunities for gender equality experts, researchers and policy-makers as well as expanding CEWS' own network.
