

GESIS Panel Unipark Template Usage

The GESIS Panel Team provides a [template](#) of a Unipark-questionnaire preprogrammed with the GESIS Panel layout. The template contains examples of all the question types described in the [GESIS Panel Style Guide](#). Researchers submitting proposals via the [GESIS Panel Submission website](#) should use the template provided.

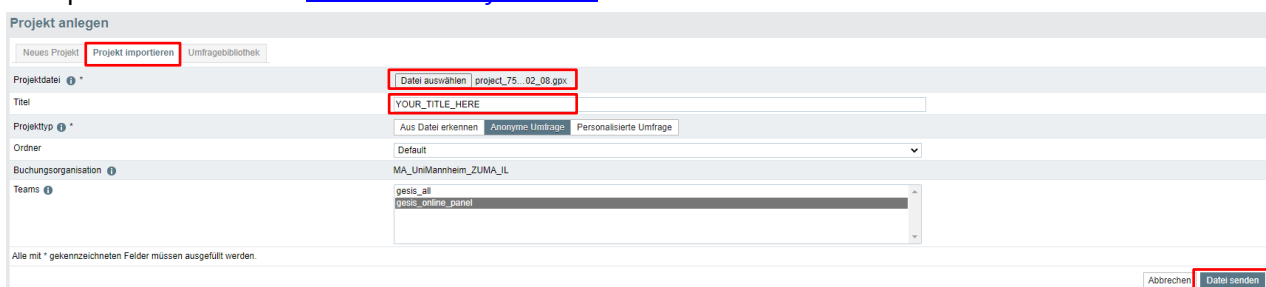

First, you need a Unipark license. Please fill out the [licence request form](#) and send it to info@gesis-panel.org or to your personal contact at GESIS Panel.

After receiving your Unipark license, please proceed as follows:

1. Download the GESIS Panel Unipark [template](#).
2. Unzip the file.
3. Visit <https://ww2.unipark.de/www/front.php>
4. Log in using your access data.
5. In Unipark, create a new project by clicking on “Neues Projekt”.

6. Select the second tab "Projekt importieren" to import the template.
7. Upload the template (gpx file) via "Datei auswählen".
8. Enter a title for your project.
9. Click "Datei senden" to confirm the upload.
10. In the questionnaire editor (“Fragebogen Editor”) you find the pre-programmed questions. You can adjust, delete, and copy them according to your questionnaire. Please also refer to the specifications in our [GESIS Panel Style Guide](#).
