

4th User Conference for EU-Microdata

5–6 March 2015

Mannheim, Germany

Objectives of this conference

- Offer a platform to discuss research based on microdata coordinated by Eurostat
- Offer the possibility for direct contact between researchers, data producers and service providers
- Learn more about the needs of researchers

Developments since last Conference

- Number of microdata bases disseminated by Eurostat has increased
- Eurostat improved information / documentation, e.g. Statistics Explained *
- Regulation for data access was changed
- Data without Boundaries has created new services for European microdata

* ec.europa.eu/eurostat/statistics-explained/

Data without Boundaries

- A European Project aiming at improving access to microdata from official statistics
- Achieved by close collaboration of
 - ESS: European Statistical System &
 - CESSDA: Council of European Social Science Data Archives
- Duration 05-2011 to 04-2015
- Envisioned Legacy of the project:
European Service Centre for Official Statistics

Researchers already benefit today

- Support of this User Conference
- DwB has developed and organized training courses for EU-LFS, EU-SILC, IECM (census data) and AES
- DwB has contributed to information systems for national OS data and Eurostat data
... and more
- All information on www.dwbproject.org

European Microdata Service at GESIS

- Basic information on household and population surveys coordinated by Eurostat
- Since 01-2015 MISSY service for LFS, SILC and AES, detailed metadata and routines to read csv-data into SPSS and Stata (SES and CIS will follow)
- Workshops & conferences
- Join our mailing list and keep up-to-date:
eu-microdata-l@gesis.org

**Thank you for your attention,
enjoy the conference!**
