

WORKSHOP

APPLICATION OF NETWORK THEORY IN COMPUTATIONAL SOCIAL SCIENCE

DEC 1ST, 2015. GESIS, COLOGNE
(WINTER SYMPOSIUM 2-3 DEC)

PROGRAM

11:30 Haiko Lietz - GESIS

Sociological perspective on modeling

12:00 Katharina Anna Zweig - Kaiserslautern Uni.

Algorithm Literacy - how to assess the suitability of algorithms

13:30 Stefan Bornholdt - Bremen Uni.

Consensus formation and scientific process

14:15 Ingo Scholtes - ETH Zürich

Analysis of non-Markovian temporal networks

15:00 Fakhteh Ghanbarnejad - Humboldt Uni.

Interacting epidemic dynamics

16:15 Luis E C Rocha - Namur Uni.

Diffusion of information on dynamical contacts

17:00 Jérôme Kunegis - Koblenz Uni.

Measuring conflicts in signed social networks

Registration deadline: Nov 18

ORGANIZERS

Fariba Karimi
