

# Educational Migration from Russia to China Choosing the Destination

Daniel Alexandrov, Viktor Karepin, Ilya Musabirov, and Daria Chuprina  
Sociology of Education and Science Laboratory  
National Research University Higher School of Economics St.Petersburg

- **Aim:** Reveal factors influencing the size of migration flow between the Russian Federation and the People's Republic of China.

- **Data:** 8131 profiles of Russian educational migrants from vk.com

- **Push-pull schema:** "push", "pull", and "mooring" variables

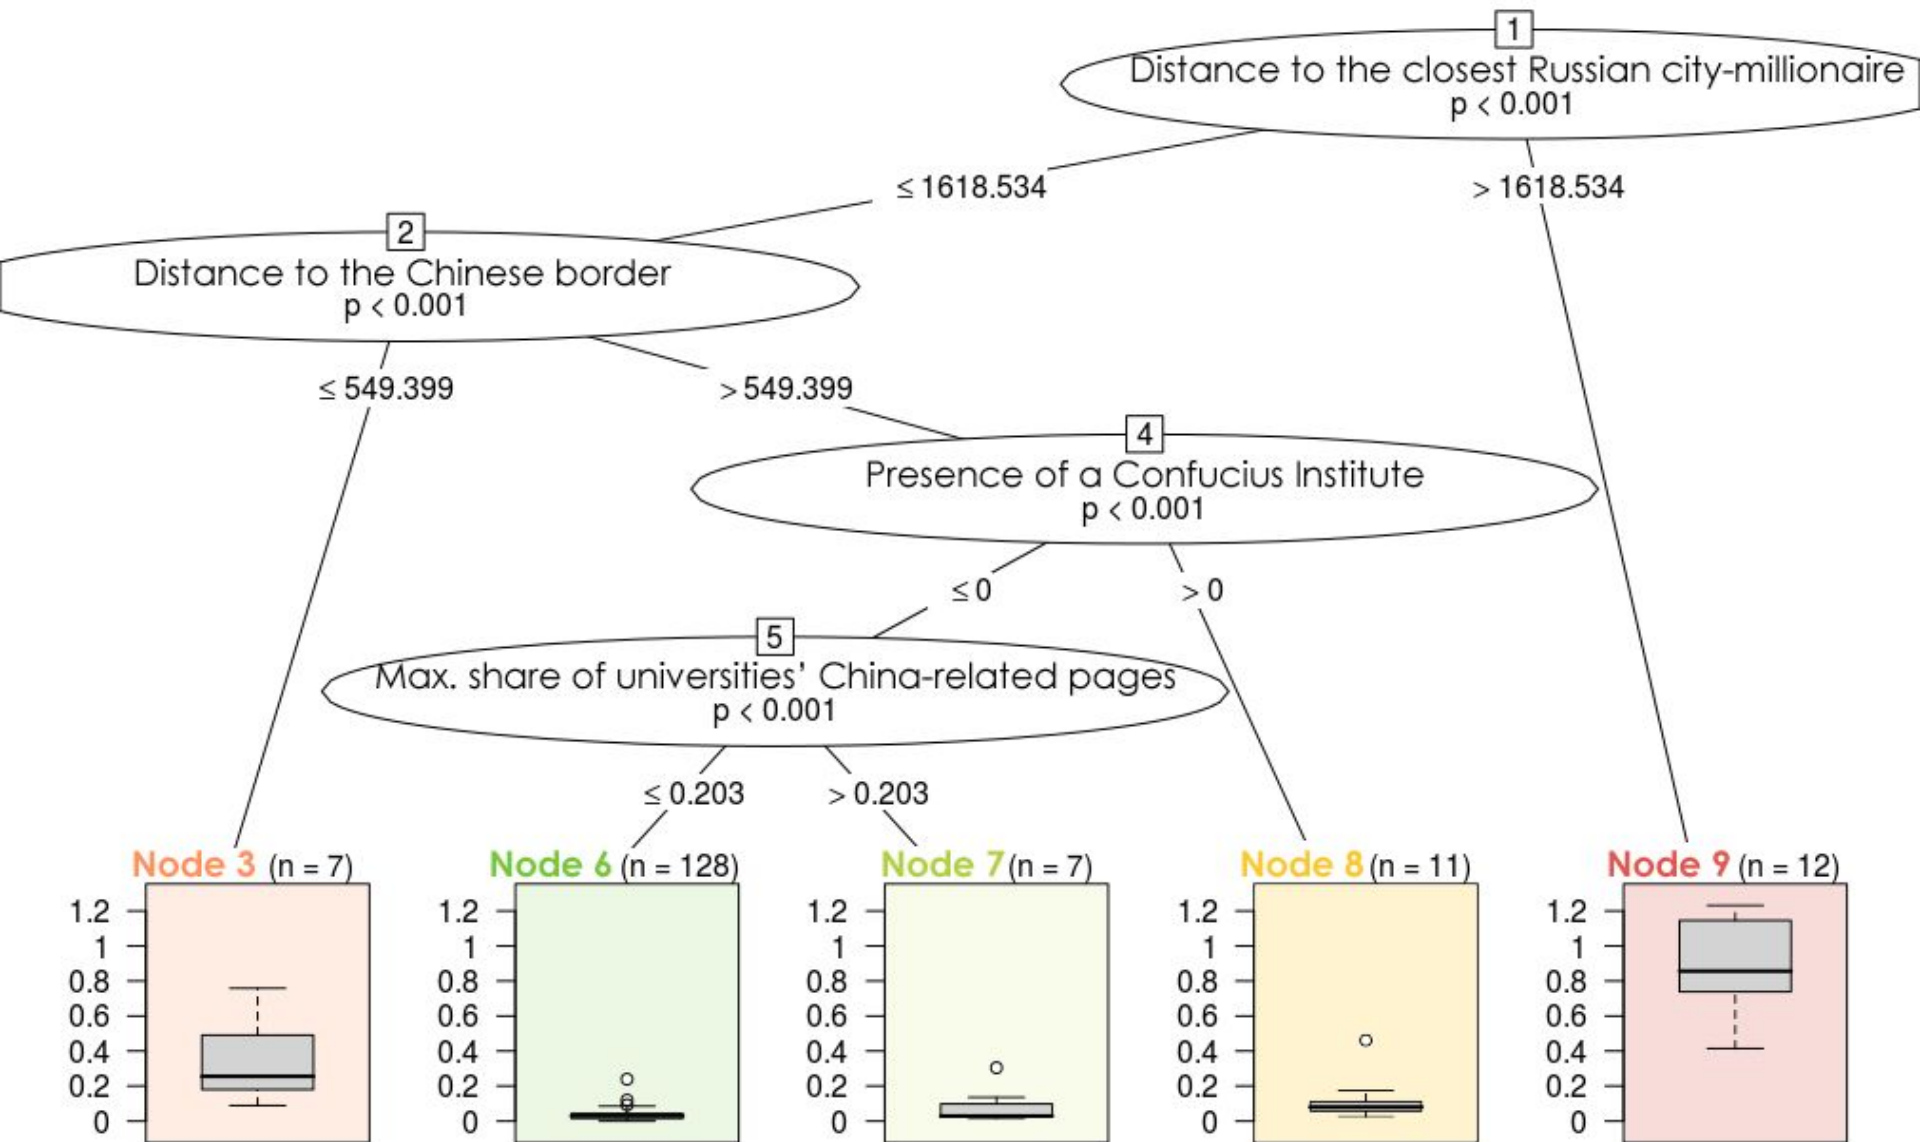

Geographical distances,  
cultural indicators and  
web-metrics

Two models:

1. focuses on characteristics of sending Russian cities
2. focuses on characteristics of receiving Chinese cities
