PRELIMINARY NOTES

Translation goals always affect the translation outcome. The goal of the English translation of the German Social Survey (ALLBUS) 2012 is to let interested researchers know what was asked in the survey. Our goal is not to produce a questionnaire that can be fielded in an English speaking community exactly as presented. Some of the translations, for example, are not especially idiomatic; reasons are given below. Our translations are not heavily annotated. Occasionally we provide additional information in square brackets [...]. If anyone wants to field ALLBUS items in English, we seriously recommend taking the points we made below into consideration and adjust the translations appropriately to his or her own survey context. If there are any questions where clarification is needed, we will be happy to help where possible.

Together with the ALLBUS 2012 study the modules for 2011 (Health and Health Care) and 2012 (Family and Gender Roles) of the International Social Survey Programme (ISSP) were fielded in a split. The English ISSP source questionnaires can be found on the ISSP website www.issp.org ("Archive and data").

We would like to take the opportunity to thank our translator for his patience and his valuable professional contribution. David Allison, a native English speaking translator, did the translation into English, decisions on the final translation are taken by the ALLBUS-team.

Particular points of relevance

Translation of the German indefinite pronoun ,man' which in some respect is like the English indefinite pronoun ,one':

The German ,man' is not formal and used in more and different contexts from ,one' in English. English equivalents, depending on context, can be ,one', ,you', ,we' or ,people'.

Gender specific reference:

German and English differ quite a lot in the way the sex of people is referred to. Various differences have meant that we sometimes translated with ‚he/she‘ when the German has indicated the sex differently.

Answer scales:

Translation of answer scales is a special case (Harkness 1998)¹. For some scales, we have attempted to provide translations that might actually work in an English field questionnaire. For other scales, where the German scale itself was perhaps unusual, we simply tried to translate the essence.

Answer categories not read out (Don't know (DK), etc.):

The ALLBUS 2012 was mainly conducted as a computer-assisted-personal-interview (CAPI) and nonresponse categories such as ‚answer refusal‘, ‚don't know‘ or ‚no answer‘ were not read out to respondents.

If there are difficulties referring to the classification, here are some hints for you:

Trainees are considered employees in a regular occupation.

Family members assisting in a family business who are full-time or part-time ("half-time") employees in the business of a household or a family member, without having a formal contract, are also considered employees in a regular occupation (either full-time or part-time).

"Employed less than part-time" are persons who are gainfully employed while, at the same time, one of the following applies:

Attend a full-time school (pupils and students),

Are registered as unemployed or

Draw a retirement benefit / pension as a result of previous employment.

Persons on maternity / parental leave or on another type of leave of absence are not considered employees in a regular occupation.
