CONTINUOUS LABOUR FORCE SURVEY

Ad hoc module "Employment of people with longstanding health problems" Second quarter 2011

Questions asked to everyone aged between 15 and 64.

These questions must be asked even when the answer to Q103 shows that there is no long-standing disability or health condition

The questions of this module must be answered by the respondent himself. Proxy answers are not allowed! Only if the respondent is not capable of answering himself (e.g. because of severe mental disability), another household member is allowed to answer the questions instead

E15: If M_ answered Q103 (Q103 = 1, 2 or 3) Intro
If M_ does not wish to answer Q103 (Q103 = 4) Stop

O. LONGSTANDING HEALTH CONDITIONS OR DISEASES AND/OR BASIC ACTIVITY DIFFICULTIES

Intro: Finally there are a few additional questions on health conditions or other limitations and the extent to which they may hinder employment. These questions are more elaborate than the last 3. The first question is on health conditions and diseases.
