Questions M1 to M7 are included into the detailed version questionnaire and refer to 2008 survey only. Inclusion is done in accordance to the Council Regulation №102/2007. The purpose is to identify population of migrants and their descendants. Household questionnaire has to be used in answering the questions, because it contains information necessary for filling in filter questions.

Question №M1 – filter question. Place of birth had to be recorded – Bulgaria or another country. Information has to be taken from the “Country of birth” question, included into the household questionnaire.

Short visits, connected to tourism or visiting relatives and friends outside Bulgaria and not excluded.

Completed years have to be recorded:

- in case the person lives in Bulgaria less than 1 year – 00 is recorded;
- in case the person lives in Bulgaria more than 1 year, but less than 2 years – 01 is recorded;
- in case the person lives in Bulgaria more than 2 years, but less than 3 years – 02 is recorded and so on.

Leaving the country for more than one year only has to be excluded in calculation of years.

Example: 1) if the person has lived in the country 2 years, has left it for one and a half years and came back to Bulgaria two and a half years ago, 04 has to be recorded - 2 years + 2 years and 6 months = 4 years and 6 months. Number of years has not to be smaller than the recorded in question “Since when do you live in Bulgaria” included into the household questionnaire.
