What is the SLFS and what is it for?
SLFS = Swiss Labour Force Survey

- The SLFS is carried out each year by the Swiss Federal Statistical Office on behalf of the Federal Council.
- The SLFS provides extremely important information about the labour situation and professional activities in general. Among other things it provides answers to the following questions:
  - How many people are there in Switzerland who are employed, not employed or unemployed? How many pensioners are in paid employment?
  - How many people work in each sector? How many hours do they work?
  - How much holiday are they entitled to? How many unemployed people are not registered with a job centre? What training do they have?

- The SLFS provides important information for decision-making for politicians, research and industry.
  - It is only by recognising the problems of the labour market in good time that effective measures can be taken, for example unemployed people can be helped through further training, occupational programmes and other measures, or mothers in part-time jobs can be provided with day-care centres and other possibilities for their children to be looked after.
  - Labour surveys are carried out in all European countries, using the same questions.

But why me?
  - Instead of questioning the whole population, which would be far too costly, it is enough to question a number of people selected at random.
  - And how we do this is as follows: around 20,000 households are selected at random out of the telephone book. Then ONE person per household, also chosen at random, is interviewed.
  - That is how you were selected. We guarantee that all the information you give us will be treated confidentially and that you will remain anonymous.
  - I cannot replace you with ANYONE ELSE because that would falsify the results of the survey.

What about data protection?
  - Without an absolute guarantee that the data we collect will be protected we cannot carry out any sort of survey. As a LINK interviewer I am also bound to protect all the data I collect. This means that no data from which individual people could be recognised will be passed on to third parties. And no names or addresses will be passed on to anyone else either. In order to ensure data protection your name and telephone number will be separated from your answers as soon as the interview is finished.
  - The results of the survey will be collated anonymously, i.e. in percentages, such as 54% of women are in paid employment.
  - I need to have your full NAME so that we can send you personally the brochure with the principal findings of the survey.

- We need your WORK ADDRESS in order to determine in which branch your company is active.
Why me again?
- It is only by putting the same questions to the people who were
interviewed last year that the Swiss Federal Statistical Office can
gain a full picture of the changes in the professional activities
and the personal situation of the population of Switzerland.
- It is only in this way that we can evaluate how many of those
questioned are still working in the same job as in the previous year,
or how many unemployed people have found a job after one year.
- The interview is shorter this time, because we have left out some
of the questions.

The Swiss Labour Force Survey is an annual survey which provides
important information about the labour market and unemployment.
You can find out more about it in the letter sent out by the Swiss
Federal Statistical Office. If you like, we shall send you this letter.

We know that you are not in the telephone book. But in order to be able
to put together high quality statistics, the Swiss Federal Statistical
Office has a list of all valid telephone numbers in Switzerland, but
without addresses. Your name was selected at random from this list.

The questions I'm going to ask you now are especially important for
the survey.
You may interrupt me whenever you like if something isn't clear.
The questions I'm going to ask you now are especially important for
the survey. Although it's you we're asking, you should answer all the question
as if you were X
It doesn't matter if you don't know the answers to all the questions.
You may interrupt me whenever you like if something isn't clear.

The following questions are about your MAIN JOB, i.e. the job to which you devote MOST OF YOUR TIME.

Although you were doing your military service last week, we would like to ask you some questions about
the CIVILIAN job you still have.
From now on, all the questions about your paid employment therefore refer only to your CIVILIAN JOB and not to your military service.
