Internal document
S.G.Estadísticas del Mercado Laboral

Updated: 1st April 2008
The document that is presented in the form of a questionnaire is an image, which can be printed out on paper, which describes the EAPS data collection process as from the first quarter of 2005. On this document you can find the questions that are formulated and to whom, depending on the answers given throughout the interview.

It is necessary to bear in mind that this "questionnaire" is not the instrument that is used during the interviews. These are carried out by running a computer application that is presented by the interviewer, on a laptop (for the first interviews) or PC (for successive interviews, principally carried out by telephone), outlining the text, the sequence of the questions, and the response options to be formulated to the interviewees.

In this manner we avoid errors that could arise with the formulation of inadequate questions, depending on the characteristics of the person being interviewed, and it allows for the control of other types of errors that could arise as a result of the information provided by the interviewee.

In particular, whenever 'reference week', 'the last four weeks', or 'next two weeks' are written in the text, the exact dates are mentioned in the interview.

In 2009 some specifications have been added, so that in case of being fulfilled, some questions can be avoided to ask and that way the respondent burden will be reduced. The questions that haven't been asked will be copied from the information of the previous quarter (T-1) under certain conditions. Of course, it will be necessary that there is certain stability in the situation of the respondent.

It will be neccesary that the person were interviewed during the previous quarter (ENCUAN=1) and that the used method in the previous quarter were CATI (METOAN=1) and the respondent in T-1 were the direct respondent (PROXAN=1) or in case of being a proxy who answered in T-1, he or she were the same as in T (IGPROX=1).

- In that case, questions about province of birth could be copied
- To copy questions about the employment, it will be necessary that some additional conditions are fulfilled, to assure that the employment is an stable one.
- The same to copy questions about previous work experience.
- To copy questions about education it will be necessary that some conditions about highest level of education in T-1 (NFORM(T-1)), and year when highest level of education was obtained in T-1 (FESTUD(T-1)) are fulfilled.

All new questions over salmon colour bottom are referred to these specifications to reduce the respondent burden.

The rest of new questions appear in green colour. Some of them, 6b to 6d in B paragraph or 2b to 2d in C paragraph, will allow us to recode some original professional status declared to the correct ones. The rest will make easy the comprehension of the question or will add new codes in case the respondent declare them (not reading them previously. For example code 7 in question 1 of D paragraph).
