| OLOTION TA | | The first part of the survey concerns general information | | |
| | | about your household and household members. | | |
| | | A household is a group of people who live in a common | | |
| | | dwelling, i.e. at the same address, and share joint financial | | |
| | | and/or food resources. Sharing joint financial resources | | |
| | | means contributing to the household income and/or | | |
| | | benefiting from the household income. Persons belonging in | | |
| | | the household are household members. A household may | | |
| | | also consist of one member only. Flatmates who live in the | | |
| | | same dwelling and share only dwelling-related expenses but | | |
| | | do not share their income are not considered to be a single | | |
| | | household. | | |
| | | modernoid. | | |
| | | Household members are people who share in the household's | | |
| | | expenses, live in the common dwelling and hold no permanent | | |
| | | residence elsewhere. Temporarily absent persons should be | | |
| | | considered household members if they: | | |
| | | - have no other main dwelling, have retained economic ties | | |
| | | with the household and their absence is shorter than one year; | | |
| | | - are children absent due to studies or a spouse/partner absent | | |
