

Blaise questionnaire of the Finnish Labour Force Survey for 2008

Contact: Mirja Tiisanoja, Laura Hulkko

NOTES:

Abbreviations: Some questions concern the survey week and the three weeks preceding it, the intention is that the software will add dates to the questions, which is denoted in the questions as follows: dd/mm – dd/mm/yyyy. The last dd/mm/yyyy means the Sunday of the survey week.

Annual data of EU-LSF (5th rotation group with us) is indicated with this colour font.

Treatment of PIPO=1 group on the questionnaire

(PIPO=1 group, i.e. the target has a job but has been away from work for more than three months and does not receive at least half of normal pay as wages or earnings-related compensation).

- The group is classified as non-employed in results.
- Necessary data concerning job/employer are collected in connection with questions for employed persons (marked with * before the question).
- Data concerning job-seeking are collected in connection with questions for non-employed persons.
- Not asked whether waiting for agreed job to start. In Finland the PIPO=1 group primarily consists of persons on child care leave or job alternation leave who have intentionally withdrawn from working life. It would feel odd to classify them as unemployed, even if they had found a new job during the leave that they would start once the leave has ended.

Conscripts/performers of community service: Eurostat moves these persons into institutionalised population in EU-LFS data and they are not taken into consideration when results are published. Performing of compulsory military service/community service also overrides other activities, so it is not purposeful to ask this group questions concerning employment during the survey week.

If worked overtime in the survey week (TA15=1, 3) value '1' can be given to the output variable formed on the basis of TA19.

TA19 You worked more hours than usual during last/the week before last week (xx hours more). Was the reason:

- 1. Overtime (paid or unpaid) or
- 2. Variable working hours (e.g. flexitime, shift work, period-based work, or the like)?

3. Other reason

DNK

Main one if many reasons.

DNK

Keep asking until suitable alternative is found.

If respondent reports one reason immediately, check if there were also others.

If $TA21=5$, i.e. cared for a child or other relative

TA22 During last/the week before last week, were you:

1. On maternity or paternity leave

2. On parental leave (incl. father's month)

3. Full-time child care leave from work or

4. Temporary care leave from work to look after a sick child

5. Or otherwise caring for children or some other relative?

DNK

Alternatives 1-4 are statutory family leave entitlements for parents of small children.

Parental leave: until the child is 9 months old; can be taken by either mother or father.

Child care leave: leave for the purpose of looking after a child aged under 3 at home; can be taken by either mother or father.

Temporary child care leave: right for a few days' absence from work because of acute illness of child.

If these family leaves are not concerned (e.g. the person has otherwise taken time off to care for a sick relative), enter 5.
