4. The number of households in the dwelling

Filled in (interviewer)  
Checked (controller)  

Confidential - For the statistical research purposes only

---

According to the Law no. 226/2009 concerning the organisation and the carrying out of the official statistics in Romania, which stipulate:

- “The present law is applied to all physical and juridical persons resident in Romania, as well to those non-resident, which carry out activities on Romania territory”;
- “The suppliers of data are obliged to release, for free, to the official statistics producers, correct, actual and complete data, terms, periodicities, in shapes and by the collecting methods comprise in the national annually statistics programme and according with the methodological standards”.

Statistical research carried out according to Regulation of Council and European Parliament no. 577/1998 on the organisation of a labour force survey in the European Community.
**Chapter 2. DATA ABOUT HOUSEHOLD**

**The composition of the household**

This table is to record all persons who are part of the household, including those who are absent on the date on which the survey was carried out (pupils or students studying away from home, temporarily workers in another location, etc.). Do not record persons random present in the household on the survey date, if they have their domicile in another dwelling.

**IDENTIFICATION DATA**

Attention! The data are recorded in these columns when each person is interviewed for the first time and remain unchanged during subsequent surveys!
