What is the SLFS and what is it for?

SLFS = Swiss Labour Force Survey

- The SLFS is carried out by the Swiss Federal Statistical Office on behalf of the Federal Council.
- The SLFS provides extremely important information about the labour situation and professional activities in general. Among other things it provides answers to the following questions:
  - How many people are there in Switzerland who are employed, not employed or unemployed? How many pensioners are in paid employment?
  - How many people work in each sector? How many hours do they work?
  - How much holiday are they entitled to? How many unemployed people are not registered with a job centre? What training do they have?

- The SLFS provides important information for decision-making for politicians, research and industry.
- It is only by recognising the problems of the labour market in good time that effective measures can be taken, for example unemployed people can be helped through further training, occupational programmes and other measures, or mothers in part-time jobs can be provided with day-care centres and other possibilities for their children to be looked after.
- Labour surveys are carried out in all European countries, using the same questions.
But why me?
- Instead of questioning the whole population, which would be far too costly, it is enough to question a number of people selected at random.
- Each year, 105,000 households are selected at random from a list containing all fixed-line telephone numbers. Then ONE person per household, also chosen at random, is interviewed. That is how you were selected. We guarantee that all the information you give us will be treated confidentially and that you will remain anonymous.
- I cannot replace you with ANYONE ELSE because that would falsify the results of the survey.

What about data protection?
- Without an absolute guarantee that the data we collect will be protected we cannot carry out any sort of survey. As a LINK interviewer I am also bound to protect all the data I collect. This means that no data from which individual people could be recognised will be passed on to third parties. And no names or addresses will be passed on to anyone else either. In order to ensure data protection your name and telephone number will be separated from your answers as soon as the interview is finished.
- The results of the survey will be collated anonymously, i.e. in percentages, such as 54% of women are in paid employment.

- We need your WORK ADDRESS in order to determine in which branch your company is active.

Why me again?
- It is only by putting the same questions to the people who were already interviewed that the Swiss Federal Statistical Office can gain a full picture of the changes in the professional activities and the personal situation of the population of Switzerland.
- It is only in this way that we can evaluate how many of those questioned are still working in the same job as in the previous year, or how many unemployed people have found a job after one year.
- The interview is shorter this time, because we have left out some of the questions.
The letter from the Federal Statistical Office informs you that your household has been selected to take part in the Swiss Labour Force Survey. This is a survey which takes place four times a year and which enables important information necessary to the economy and research to be gathered on subjects related to occupational activity and unemployment. The letter from the Federal Statistical Office also informs you that ALL selected persons are legally OBLIGED to take part in the survey.

May I ask you the questions now?
- CONTINUE THE INTERVIEW ..........................<ENTER>
- MAKE AN APPOINTMENT ..............................<BT3>
- REFUSAL .............................................<BT3>

INT.: If expressly requested, the letter can be sent again but only AFTER the interview has been carried out.

The Swiss Labour Force Survey is a quarterly survey which provides important information about the labour market and unemployment. You can find out more about it in the letter sent out by the Swiss Federal Statistical Office. The letter from the Federal Statistical Office also asks you to assist us in the Swiss Labour Force Survey.

May I ask you the questions now?

- MAKE AN APPOINTMENT ..............................<BT3>
- REFUSAL .............................................<BT3>

INT.: If expressly requested, the letter can be sent again but only AFTER the interview has been carried out.

We know that you are not in the telephone book. But the Federal Statistical Office is obliged to take account of the whole of the population. Since February 2008, a new Federal Council ordinance allows it to use all fixed-line telephone numbers in Switzerland including those that do not appear in the telephone directory. Only a few priority FSO surveys have access to this list of fixed-line numbers, including this survey on the labour force (SLFS). Your telephone number has been selected at random from this list. Data protection is guaranteed by the Federal Statistics Act and the Data Protection Act:
- telephone numbers are treated in confidence
- they are used for statistical purposes only, their use for commercial or administrative purposes is absolutely out of the question and liable to prosecution.

Why is participation in the SLFS compulsory?
- The Federal Council has made the Swiss Labour Force Survey compulsory, because it is particularly important for the Swiss economy and policy.
- The SLFS is a cornerstone of labour market and socio-economic statistics.

Why has the SLFS become compulsory?
- In order to obtain short-term labour market indicators and to enable international comparisons, the Federal Council has decided to conduct the Swiss Labour Force Survey throughout the year, as of 2009/10. This will allow not only annual, but as a new and
### Important Development

An important development, also **quartely analyses** to be made.

### The Response Rate

- The response rate should become even higher than it is now. This is the only way to obtain good and reliable results. In order to achieve this, the Federal Council has made participation in the Swiss Labour Force Survey, and only this survey, compulsory.

### The Obligation to Respond

- The introduction of the obligation to respond was also decided for **reasons of cost effectiveness**. Each refusal results in costs with limited funds.

### Legal Bases

- **Yes**, as mentioned in the letter from the Federal Statistical Office, the obligation to respond, decreed by the Federal Council, is **legal**.

### How to Identify the Survey

- Prior to being interviewed, each household selected to participate in the Swiss Labour Force Survey receives a letter from the FSO.
- The FSO introductory letter contains all **important information** about the content and conduct of the interview as well as the obligation to participate.

### Health Reasons or Abroad

- A **CODE** is also given in this FSO letter: persons who have doubts about the identity of the caller ("Is this really someone from LINK wishing to interview me for the SLFS?") can ask the interviewer to say the code in order to identify him or herself.
- A telephone number is also included in the FSO letter (**SLFS Hotline**) where persons can ensure themselves that everything is in order.

### Wrong Answers

- The **law obliges** the person being interviewed for the SLFS to answer questions truthfully.
- Anyone who demonstrably provides false answers is liable to **prosecution** and a fine.

### Refusal to Participate

- Before imposing a fine, the Federal Statistical Office **first** sends a **WRITTEN REMINDER** should a person fail to properly fulfil the duty to disclose information.
- A fine can only be imposed once this step has been taken. According to the Federal Statistics Act (Art.22BStatG), persons who fail to comply with the duty to disclose information can be FINED once they have been sent a reminder.

- The amount of the fine is not predetermined. The amount of the fine depends on the seriousness of the failure to comply. The principality of proportionality will be applied.

- The aim of the FSO is not to impose fines; it counts, rather, on the collaboration and willingness of those selected for interview.

- In recent years the FSO has been extremely cautious with fines and this practice will not change.

Let's assume that you can't find a full-time job.

In that case, would you be prepared to accept a part-time job?
You said that you have a number of jobs.

The following questions concern your MOST IMPORTANT second job, that is the one you spend most time on after your main job.

Since the interview on X, do you still have the same job in this company?

Since the interview on X, do you still have the same job in this association or institution?

What type of job is your second most important source of income?

What exactly do you do?
Ex.: Teacher of geography but not only teacher
- Head of finance and not only head
- Bank employee and not only commercial employee
